The Presidents Corner By: Jim Balthazor

Wow, what a party! My compliments to Buddy on a wonderful Christmas Party, the food was great the company was excellent, and the Dirty Santa Gift exchange was a riot. Holly and I had a great time, and we look forward to next year's party.

The coming year will be an interesting year for our hobby. Amateur Radio Operators in communities controlled by Home Owners Associations have suffered a setback by the U.S. Senate's decision to not take a floor vote on the Amateur Radio Parity Act. I expect that the ARRL will be committed to pushing this bill through both houses in the next session and hopefully a better version of the bill will eventually pass and become law.

On a more local level I'm looking forward to being at the Brat Fry, Ham Radio Play Day, Field Day and of course the Christmas Party.

Happy New Year!

JB – K9AIX

Next Meeting

When: Jan. 9, 2017 at 7:00 pm
Where: Moraine Park Technical College
 Room A-112
Program: TBD

QST Managing Editor Becky Schoenfeld to Speak at FARC Meeting! By: Joe Scheibinger K9VY

Yes, you read that right! Becky Schoenfeld W1BXY, Managing Editor of one of the greatest magazines in our field, and one of the oldest radio enthusiast publications in the world, will be our guest speaker at the January 9th meeting!

A Connecticut native, Schoenfeld has more than two decades of publishing experience. Prior to her employment at ARRL Headquarters she was a Senior Project Editor at Teaching K-8 magazine, one of the most popular magazines for childhood educators, and Senior Project Editor for the prominent textbook publisher MacMillan/McGraw-Hill. In addition, she founded Amaranth magazine, a successful poetry journal.

She holds a Master of Fine Arts from Emerson College and a Bachelor of Arts from Fairfield University. Her Amateur Radio activities include portable operating, adding to her DXCC totals, and learning code on a straight key.

"QST" is a magazine for amateur radio enthusiasts, published by the American Radio Relay League (ARRL). It is a magazine that is included with membership in the ARRL. The League has over 170,000 members worldwide as of January 2016, and a staff of 100 full time and part time employees. ARRL also publishes three special interest

Becky Schoenfeld W1BXY - Managing editor of QST Magazine

magazines, QST, QEX, NCI, along with over 160 books and software titles and a variety of special interest newsletters.

In Ham Radio, the "Q" codes are typically used when there is a need or desire to express a particular idea and do so as quickly and simply as possible using Morse Code. "QST" means "Message to all radio Amateurs", and makes a perfect name for the most popular radio magazine for Amateur radio!

The ARRL is the national membership association for Amateur Radio operators. The League represents Amateur Radio interests to regulatory bodies, provides technical advice and assistance to Amateur Radio enthusiasts and supports a number of educational programs throughout the country. ARRL is a non-profit organization and has relationships with several other organizations including the Federal Emergency Management Agency, the American Red Cross, the Salvation Army, the Department of Defense, the Boy Scouts of America and several others.

Fond du Lac Christmas Parade. By Peter Fox KB9WZD

Our club again participated in running the Fond du Lac Christmas Parade. All totaled we had 11 amateur volunteers

Dawn Krause, KD9CAW
Paul Bleuel, KC9NAA
Tom Powell, KC9VXR
Don Chapman, KC9KZQ
Doug Schultz, N9EZF
Buddy Larson, KC9UVJ
Justin Buell, KB9YET
Peter Fox, KB9WZD
Brian Turkiewicz, KC9LFR
Nate Van Da Huvel, KC9LFQ

We also had an additional volunteer from the Calumet Group that I did not get the name of.

Regarding the help there are a couple of outliers that made this event possible and successful. First it would be impossible to even pull off if not for Buddy KC9UVJ and Justin KB9YET these guys are the ones I can truly depend on when everything is going wrong (and it tried to). Additionally without the support from Calumet ARES from Brian KC9LFR we would have surely failed as we lack the experience with High volume traffic flow. In addition, they exceeded my hopes and were able to mostly fill our personnel shortage. If possible we need to make sure and repay them at their events next year.

Regarding hours of time volunteered Justin, Buddy, and myself had about 6 hours on site today with the majority of the rest having 3-4 hours. I was not able to keep better track.

Many thanks to Dawn Krause KD9CAW for the pictures.

December 9, 2016 Testing Session

Doug Schultz coordinated our final testing session for 2016 on December 9th. This was again a successful operation with two people moving their HAM career forward.

Doug Schultz N9EZF and Stan Cram AI0M (above) and Dick Finn (on the other side of the camera) made up the team of three required Volunteer Examiners (VE).

Stan Cram AI0M congratulates Kyle Ruesch KD9FYQ on upgrading his ticket to Extra Class.

Stan Cram AI0M congratulates Phillip Paulson KC9ZCP on upgrading his ticket to General Class.

Annual Christmas Party, Dec. 10, 2016

We held our annual Christmas Party at Jim and Linda's Lakeview Restaurant again this year with 41 members and guests attending. Everyone had a great time at a reasonable cost (\$20.00). Jim and Linda put together a great menu including tenderloin, prime rib and even fried fish along with several other items. The dinner included soup and salad and the portions were large and no one went Hungry,

After dinner, Buddy Larson KC9UVJ and Ted Willett W9NHE MC'ed the Christmas Gift swap. After the gift exchange the door prizes were given out—a Jim and Linda's gift certificate and four Bao Feng radios.

Noise floor report does not inspire confidence By Dan Romanchik, KB6NU

Last June, the FCC's Technical Advisory Committee asked licensed and unlicensed users of the electromagnetic spectrum to answer some questions about the noise they were experiencing and whether or not it was affecting their services. Specifically, they asked:

- * Is there a noise floor problem?
- * Where does the problem exist? Spectrally? Spatially? Temporally?
- * Is there quantitative evidence of the overall increase in the total integrated noise floor across various segments of the radio frequency spectrum?
- * How should a noise study be performed?

Well, the results are in, and Radio World recently published a summary of the responses that the FCC received (<http://www.radioworld.com/business-and-law/0009/noise-floor-where-do-we-go-from-here/338242>). The FCC received 93 replies from 73 (great number, eh?) different people or organizations, including:

- * 23 companies/industry organizations
- * 39 RF professionals (broadcast and wireless)
- * 31 licensed radio amateurs
- * 9 responders did not reply to the questions asked

Respondents included the ARRL, the Society of Broadcast Engineers, the National Association of Broadcasters, the National Public Safety Telecommunications Council, ATT, and the National Electrical Manufacturers Association. I found especially interesting comments from the Society of Broadcast Engineers. They include:

- * Increased cooperation is needed between manufacturers of Part 15 devices and users of radio spectrum to identify noise sources and take appropriate remedial action.
- * Radiated emission limits below 30 MHz in the FCC Part 15 rules for unintentional emitters should be enacted. There are presently no radiated emission limits below 30 MHz for most unintentional emitters.
- * Reduced Part 15 limits for LED lights should be enacted to be harmonized with the Part 18 lower limits for fluorescent bulbs.
- * Better labeling on packaging for Part 18 fluorescent bulbs and ballasts to better inform consumers of potential interference to radio, TV and cellphone reception in the residential environment.
- * Specific radiated and/or conducted emission limits for incidental emitters, such as motors or power lines, should be enacted.
- * Conducted emission limits on pulse-width motor controllers used in appliances should be enacted.
- * Substantially increase the visibility of enforcement in power line interference cases.

Other organizations made similar comments.

While the report is encouraging, it won't mean a thing if no action is taken on these issues. Given that the FCC is cutting back on its field offices, and our president-elect has said that he plans to reduce the number of governmental regulations, I'm not optimistic that we'll see the noise situation get better before it gets worse. What do you all think?

When he's not battling the noise floor at his QTH, Dan blogs about amateur radio at KB6NU.Com, writes the "No Nonsense" amateur radio study guides and teaches ham classes. You can contact him by e-mailing cwgeek@kb6nu.com.

NOTICES/ANNOUNCEMENTS

Elmers:

It has come up several times recently that there is a need for our more experienced members to act as Elmers for the newer HAMs in the club. The first time this came up I got linked up with Jack Heil (KG9IN) and have spent many enjoyable hours with him. I've learned about hanging an antenna, contesting and a week or so ago got a super tour of my Yeasu FTDX1200. Most importantly, I finally got on the air.

ELMERS	
Lloyd Vandervort (N9RPU)	lloydv654@gmail.com
Doug Schultz (N9EZF)	n9ezf@fdlhams.org
David McCumber ((N9WQ)	n9wq@charter.net
Marjorie & Jack Heil (KC9BEN, KG9IN)	heilmj@att.net 920-9221413
Rick Robinson (N19Z)	920-924-9559 Code, DX'ing, Contesting
Stan Cram (A10M)	Contesting, general help

At the April meeting we collected the names of several members who were willing to act as Elmers and the names of several others who would like their help. With a goal of linking the two I have listed the names below. I offer it as an exercise for the student to match Column A to Column B.

License Exams By Doug Schultz

If you missed our last testing session in December, we will be hosting license exams again on Feb. 18, 2016 from 9:00 am to Noon at Moraine Park Technical College in Room O-104. If you know of anyone who is interested in getting their ticket, please give them a call. There is also time for you to prepare for an upgrade test.

Be aware that the question pool for the Extra Class Test took affect on July 1, 2016. If you plan on taking this test you will need to prepare using the new pool.

Editors Note: Doug is always on top of things and has already scheduled all four testing dates for next year. See the calendar for the list.

2017 Club Dues By Doug Schultz

The 2017 club dues are due at or before the January, 2017 club meeting. Club membership dues are \$15 for individuals, \$7.50 for students and family memberships are \$20. They can pay me at the November 14th club meeting or at the Holiday Party on Dec. 11th. If they can't attend either of those events they can mail them to:

Fond du Lac Amateur Radio Club,
P.O. Box 53,
Fond du Lac, WI 54936.

Logo Ware:

Last spring many members ordered polo shirts with the club logo on the back and name and call sign over the pocket on the front. The screen printing company, "Imagineers" in Ripon, has the logo and will print it on many items such as tee shirts, polo shirts, jackets, etc. The prices are reasonable. They do not need a minimum order and will do one item if it is paid for in advance.

You can call them to order a polo shirt like members got last year or another item, give a credit card number if you do not want to travel to Ripon, Tom Powell, KC9VXR, who lives in Ripon is willing to bring them to FDL at the next meeting or event. Or, you can come to their store in Ripon to see the many choices they can offer from a wide variety of clothing manufacturers.

Contact information is listed below. Due to the many manufacturers they buy from the options are too numerous to put on a website. They do a lot of business with schools in the area also. There are other options for purchase of club logo wear but this company was chosen last year for their prices, quality, the large variety of items, their good service, and willingness to do small orders.

Imagineers
Howard and Jane Hansen, owners
217 Watson St.
Ripon, WI, 54971
(920) 748-6599
—30—

Rick Robinson wore this jacket to our last meeting. It really is quite handsome. The logo is embroidered. Rick paid the setup charge already and estimates the price would be about \$125 for others.
