Fond du Lac Amateur Radio Club Will Meet At Moraine Park College

The FARC will once again meet at the Moraine Park location in room 0-102. Park in the west lot and enter in the same place as previous meetings, the "O" building. We will be meeting **downstairs**.

Official FARC Junk Table Set Up At Meeting

Back when we were meeting before Covid, we always had a table set up where you could select from some amazing things that other Ham radio operators would bring in to share. Piles of magazines, books, and even some hardware was brought in to borrow and give away. So it's time to clean out the radio shack of the accumulated stuff you don't want any more over the year of the pandemic. If you have old magazines, this is a great way to help distribute knowledge of our great hobby! Take them home and when you are done reading them bring them back next month and put them on the table for the next ham! And if you have anything to sell, bring it and attach a note to it showing how much you want for the item and who you are. **Older magazines are always welcome!**

Publication Corrections and Distribution

The "FDL 73" newsletter is compiled and distributed by the members of the Fond du Lac Amateur Radio Club. It is distributed by E-mail free of charge to all its members. Members are encouraged to send copies freely to other Ham Radio enthusiasts, electronic hobbyists, and friends. The newsletter is the heartbeat of the club and members are encouraged to participate by lending stories, experiences, and expertise. Deadline for submission is 10 days before the next advertised meeting. For corrections and submissions please send them to backstagelive@gmail.com.

Worked All States Awards

By Doug Schultz N9EZF

A number of newer hams have asked me about achieving the Worked All States (WAS) award. Depending on what mode you're using on the HF bands my advice will vary. I achieved my first WAS award in 1988 on SSB or phone. I was logging with a paper log and the ARRL had a WAS check list that I used to track my progress. As I received QSL cards from different states I would check those states off the WAS check list. That worked for the easier states to work then it gets a little tougher to pick up the remaining states.

One way you can get some remaining states was through state QSO parties. I remember I had a problem getting Delaware confirmed so I worked some Delaware stations in the Delaware QSO Party on SSB. Another way to work the remaining states is checking into the 3905 Century Club net which meets every night on both 40 meters and 80 meters. I was able to confirm a number of states through that net as well. Check on the internet what time the 3905 Century Club meets as well as the other frequencies. When I had received all my QSL cards and made sure they were filled out correctly. I sent them into the ARRL in alphabetical order for verification along with my application and payment for the certificate as well as postage.

Today with the advent of computer logging it is easier to achieve the WAS award. The logging software that I use today is Amateur Contact Log by N3FJP and it makes it quite easy to keep track of how many states you have confirmed since it has an award tab. You click on the award tab and it will calculate the number of states confirmed as well as other award totals. Amateur Contact Log allows me to upload my QSO's on a daily basis to Logbook of the World (LOTW) as well as receive my QSO confirmations from (LOTW). Since I started operating FT8 I found I could get my QSO's on a daily basis from the WSJT-X program to drop into my Amateur Contact Log.

I also have an HTML membership at QRZ.com which allows you to fill in names, counties, states and countries to ALog prior to uploading to LOTW. Since I have the HTML membership at QRZ I download my logs from LOTW on a daily basis into my QRZ logbook. The QRZ logbook program is very easy to use and it keeps track if you're eligible for awards. Once you're into your logbook on QRZ you click on the awards tab and always be able to tell at a glance if you're getting close to achieving an award. The program also sends you an email once you have achieved an award. QRZ has a 50 States award which is their version of the WAS award that ARRL has. It took me 5 months to achieve the 50 States award using FT8/FT4. I have heard of some hams that have achieved WAS awards in a little over a month using FT8. No matter what awards you achieve there is a charge for the certificate as well as postage. New wallpaper certificates are always a good thing in the ham shack. I would recommend trying to achieve the WAS award with FT8/FT4. If you have any questions in regards to logging software, LOTW, QRZ or FT8/FT4 let me know.

Member Highlight Series

Wally Meyer K9WKM

Each month we will highlight and interview a club member and go into a little about the amateur activities as well as their interests. This month's member highlight is Wally Meyer and his call is K9WKM.

Wally Meyer was involved in electronics most of his life. His stepfather was a ham in the 1970's and Wally was put off by the Morse code requirement to get a license. He tried to learn it but became bored with CW and became involved into CB radio. Wally worked in the cable TV industry most of his working career.

He became interested in getting his amateur license in the winter of 2019 after watching YouTube videos from KB9VBR and Ham Radio 2.0. Wally said he learned that this amateur radio of 2020 was different than the 1970's because of the diversity of modes that are being used. Wally contacted me about taking a Tech exam in March, 2020 and we didn't have any scheduled until April which was cancelled due to MPTC closing the campus to outside groups due to pandemic. Wally was determined to take the Tech. exam in March, 2020 and contacted GLARG (Greater Los Angeles Radio Group) to setup an online exam utilizing Zoom. He passed the Technician exam in March, 2020 and his General exam in April, 2020 with GLARG. Wally was interested in trying out the different digital modes such as DMR, FT8 and RTTY. He recently put on presentation at one of our meetings with Cully Kowal KS0D on the DMR digital mode used on the VHF/UHF frequencies. He also is interested activating Parks on The Air (POTA)

Wally operated Field Day 2020 from home as most of us did. He said he listened to the exchanges on this contest and he had fun operating in the Field Day contest. Wally now was hooked on contesting as well. He also participated in the 13 Colonies Special Event in July, 2020 and had a blast working as many stations as he could. Wally also operated in the WI QSO Party in March, 2021 and said he had fun in that contest as well.

Wally's HF station consists of Icom IC-7300 transceiver and for portable use he has Icom IC-705 as well as a Xiegu G-90. He also has Icom IC-9700 for satellite as well other VHF/UHF modes. He also has Anytone DMR HT that he uses for DMR and has Open Spot Hot spot for DMR over the internet. His HF antennas are half wave end fed wire antenna that covers 80meters thru 10 meters as well as a Zero Five 33 foot vertical. His portable antennas are a Super Antenna and a Chamaleon MPAS. Wally's goals in amateur radio are to get his Extra class license which he is studying for now. His other goals are to learn CW and become a VE so he can give back to the hobby.

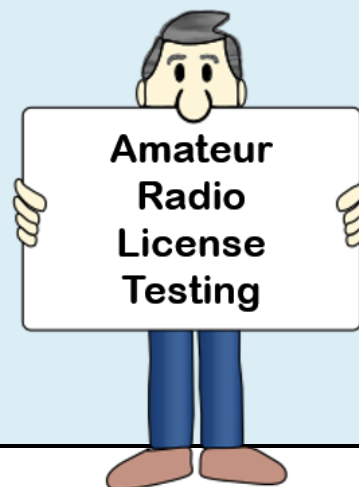

Amateur License Exams

The Fond du Lac Amateur Radio Club VE team will be holding two exam sessions at MPTC this fall. They are scheduled for: **October 9, 2021** and **December 4, 2021** from 9:00 AM until noon in room O-103 at MPTC. Face coverings will be required at both exam sessions. If you need more information on the exam sessions please contact Doug Schultz at 920-922-3088 or via email at: schultz74@charter.net.

The \$35 FCC application fee for radio amateurs has been postponed until 2022 to give the FCC time to upgrade the FCC website.

All amateurs that are renewing the license or making an application to upgrade their license will be required by the FCC to provide them with a valid email address. The FCC will be contacting the amateurs via email from this point on.

New Applicants for Amateur Radio Licenses will be required to get a FRN from the FCC website before coming to an exam session. Social Security numbers aren't accepted on the FCC form 605 any longer and if you don't have a FRN you will be unable to take the Technician exam.

CONGRATULATIONS TO JUSTIN BUELL

For your leadership in the organization of your team , and the great management of the communications for the Fond du Lac labor Day Parade, the Fond du Lac Amateur Radio Club awarded Justin with the Certificate of Excellence.

FARC CHRISTMAS PARTY

At our October meeting we will be asking for ideas for the FARC Christmas Party! I have reserved the old Holiday Inn where we had our earlier meetings for Monday, December 13th. We know they have great pizza and they have the large open-space room. But they also have quite a menu to choose from! We can also have the ballroom if we want.

If you have any ideas for a great place to have our party please come to the meeting and bring it up. We will finalize the party at the October meeting.

We will need a volunteer to head and MC the event.

(Note: I would like to help organize after we get a volunteer to lead the project. November and December are my busiest months but I will have the time to help with door prizes, contracts, advertising, etc. I also have a PA system with a wireless mike for the door prize swap! Let's discuss this at the October meeting)

Meeting Minutes

Minutes from 9-13-21 Meeting

The meeting was called to order at 7:01 PM by President Tom Karrmann KC9VZY. We then went around the room with introductions of attendees.

Tom Karrmann KC9VZY then asked for a motion to approve last month's meeting minutes. A motion to approve the August, 2021 meeting minutes was made by Tom Powell KC9VXR and seconded by Erling Gruel WB9OJD. Tom asked if there were any corrections, objections or comments? None were raised and the motion passes.

Tom Karrmann KC9VZY asked for a motion to approved the Treasurer's report. Cully Kowal KS0D brought up a point of order according to the articles of incorporation the Treasurer is required to pay the bills. It was mentioned that just because we have a bill it has to be approved and that is a valid bill. A motion was made to approve the Treasurer's report by Jim Balthazor K9AIX and seconded by Justin Buell KC9YET. Motion was approved. Tom Karrmann KC9VZY then asked for a motion to pay the bills. A motion to pay the bills was made by Lloyd Vandervort N9PRU and seconded by Joe Lauber KC9MDY. Motion to pay the bills was approved.

Tom Karrmann KC9VZY then asked for old business. Under old business is the restated articles of incorporation. Cully Kowal KS0D said because of changes the IRS requires our articles of incorporation need to brought up to date to enable our application for a 501C3 designation. Tom Karrmann KC9VZY can sign the restated articles and Doug Schultz N9EZF can send this to the state.

Tom Powell KC9VXR mentioned in Article 3 says that the registered agent is Doug Schultz N9EZF. What happens if that changes in the future? Doug Schultz N9EZF said that he has to fill out an annual report listing club officers and board members as well as pay a \$10 renewal fee to the state. The registered agent could be changed at that time. Tom Karrmann KC9VZY then we need to determine if we have a quorum to vote on the restated articles of incorporation.. Will everybody that is a member in good standing stand up. We counted 24 members in good standing out of 36 total members so we have a quorum. Tom Karrmann KC9VZY then asked for a vote approving the Restated Articles of Incorporation by all paid members. All 24 paid members approved the Restated Articles of Incorporation.

Tom Karrmann KC9VZY then asked for new business and brought up the Labor Day Parade. Justin Buell KC9YET commented that the parade went well with plenty of help and only had a few problems. Tom Karrmann KC9VZY then presented Justin Buell KC9YET a certificate of Appreciation for the good job he did with leadership for the Labor Day Parade.

Doug Schultz N9EZF then brought up that the VE team will be having amateur license exams on October 9 and December 4 in room O-103 at MPTC.

Meeting Minutes

Continued...

Tom Powell KC9VXR then mentioned that the club has been looking for a trailer to replace the yellow banana and haven't found anything. If anyone discovers one let the club officers know. Cully Kowal KS0D then asked how comfortable we are with the yellow banana staying on Dave McCumber's N9WQ's lot. Dave's shop certainly has liability insurance covering all the vehicles parked there. Joe Scheibinger K9VY mentioned that he still has his RV for sale.

Tom Karrmann then asked for other new business. Doug Schultz N9EZF brought up that we have a new member application from Pete Leonard W9ZMF from Oshkosh. A motion to approve Pete Leonard W9ZMF's membership was made by Cully Kowal KS0D and seconded by Tom Powell KC9VXR. The motion was approved.

Tom Karrmann KC9VZY then brought up that we usually we usually have holiday party in place of our December meeting. Should we do this? There was no interest due to Covid virus. Doug Schultz N9EZF brought up that we couldn't have food or drinks in our MPTC room and that the room O-102 will be renovated beginning in Dec. Joe Scheibinger K9VY brought up possibly having holiday pizza party at the Holiday Inn. Tom Karrmann KC9VZY then asked for a show of hands to see if there was interest in having our December meeting at the Holiday Inn. Joe Scheibinger will call and check with the Holiday Inn.

Tom Powell KC9VXR asked when we would change our by-laws. Tom Karrmann KC9VZY said that they haven't been changed yet. A motion to adjourn was made by Peter Fox KB9WZD and seconded by Jim Balthazor K9AIX. The motion to adjourn was approved and the meeting adjourned at 7:38 PM.

Face Coverings Required at MPTC Through December, 2021

I have received notice from Moraine Park Technical College that all outside groups using their campus will be required to wear face coverings due to the continued Covid pandemic through December, 2021. The Fond du Lac Amateur Radio Club Meetings that are scheduled for Sept. 13, 2021, October 11, 2021 and Nov. 8, 2021 will require that all members attending wear face coverings.

Amateur Radio operators come from all walks of life -- doctors, students, kids, politicians, truck drivers, movie stars, missionaries and even your average neighbor next door. They are of all ages, sexes, income levels and nationalities. Whether through Morse Code on an old brass telegraph key, voice communication on a hand-held radio or computerized messages transmitted via satellite, all hams use radio to reach out to the world.

These are the devoted members of one of the best Amateur Radio Clubs in the Midwest, dedicated to community service, and dedicated to preserve and protect one of the greatest hobbies in the world.

We are the members of the Fond du Lac Amateur Radio Club
